**Subject:** FW: Tower Standard Technical Group Call - October 27

Good Morning Sherry,

The Haskell Lake Project Schedule Development was on the agenda for our October 5<sup>th</sup> call. The call was postponed, awaiting the Bristol Report. It looks like schedule is on the agenda for the October 27<sup>th</sup> State-Tribe-EPA call.

Could we schedule a call in advance of the October 27<sup>th</sup> call to get the EPA and Tribal requirements addressed in the schedule?

For Reference, I have attached the schematic of our agreed process. This should be helpful to the schedule work.

Call in : 866-299-3188

Access: 6828774

Agenda:

1. Bristol Remediation Options Recommendation report
2. Schedule

**Subject:** Tower Standard Technical Group Call - October 27

Good Morning:

My calendar says that we have a call coming up at 8 AM on Thursday morning. Here are some proposed agenda items; please share suggestions for other items with the group:

- Brief discussion on review/comment process for call notes
- Update on status of RAOR from Bristol
- Clarification of available data/results/submittals – who has what, and what can we do better in terms of sharing information?
- Prioritization of time remaining in 2016 – complete MW network installation vs. remedial action planning/implementation vs. other?
- Need to update project schedule?
- Other items?

Talk to you on Thursday. Thanks!
